

BALI NATURE TOUR

Bunut Gesing: The village of Gesing is the home of a 700 years old tree. This fascinating tree has been allowed to grow to giant dimensions by mother nature, its sheer size is truly unique on Bali. Try to climb through the base of the tree which has formed an enormous network of roots.

Desa Limpah: Visit coffee-, cacao-, avocado-, pineapple- and clove-plantations cultivated on fertile volcanic soil during a trekking tour around Desa Limpah. Sample some exotic fruits, see some of the islands most beautiful rice terraces while walking along the river of Desa Limpah. The tour will end with a chance for you to cool down at romantic Munduk Waterfall. After this tour you might have seen all types of fruits and trees Bali has to offer in it's natural environment.

Duration of the Bali Nature Tour: approximately 6 hours. Start at 7am.
